

## Profile

Being a student in a highly saturated market I have had to ensure that I remain a well-rounded individual, I have a great passion for technology but more importantly collaborating with others to solve real problems whilst adding value to myself and those around me

## Experience

### **ANDROID LEAD DEVELOPER, MUMBLE LTD, UK - OCTOBER 2014-PRESENT**

Currently leading a team of 2 on the creation of a geographical based social platform for Android. My work involves developing the system to allow its users to post and retrieve messages with respect to the users location. I am heavily involved in both front and back end development involving the implementation of search algorithms needed to retrieve data.

### **DIRECTOR/TECHNICAL LEAD, DISE LTD, NOTTINGHAM, UK – JUNE 2014 - PRESENT**

Co founded an application development company (DiSE Ltd) aiming to develop in house and bespoke applications for clients.

Has been featured in many news outlets such as Nottingham post, BBC radio and MTV Voices, was also awarded the Spark Notts best new business idea prize worth £18,000 by the Nottingham council & Oxford Innovation. Currently acting as technical lead whilst developing all android software.

### **IT CONSULTANT, DOUBLE IMPACT, NOTTINGHAM, UK – JAN 2014 - APR 2014**

Led a small team to examine and advise the upgrade of a charities IT infrastructure. Also proposed cost effective methods of how they can increase and track donors by using various technologies.

## Recent Projects

### **BRICKS - CO DEVELOPER**

Majorly involved in the development of algorithms used within game and also devising marketing strategy. Also oversaw the conversion of the app for release to the google play stores. Achieved over 11k downloads in over 80 countries.

### **UON WELCOME APP - ANDROID DEVELOPER**

Worked with a small team and university to deliver a platform to enhance the week one experience for both freshers and returners. Solely developed the android platform to accommodate for a vast range of screen sizes and API levels. Also proposed changes to the universities week one agenda for next year after analysing data from google analytics.

### **PHONE AS SERVER FRAMEWORK**

Currently working on developing and documenting an extendable framework which will enable multiple android devices to engage each other in multiplayer gameplay within an offline environment.
